# SPAGHETTI WAREHOUSE RESTAURANTS ALLERGEN INFORMATION

At Spaghetti Warehouse Restaurants, the health and safety of our guests is important. The FDA identified the major food allergens as milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat and soy, as well as ingredients that contain protein derived from these foods.

Our allergen information is based on product information provided by Spaghetti Warehouse Restaurants' approved food manufacturers. Every effort is made to keep this information current. However, it is possible that ingredient changes and substitutions may occur due to the differences in regional suppliers, recipe revisions, preparation techniques, and/or the season of the year. Certain menu items may vary from restaurant to restaurant and may not be available at all locations. Limited time offers, test products, or regional items have not been included in the menus. Please be aware that the during normal operations involving shared cooking and preparation areas, including common fryer oil, the possibility exists for food items to come in contact with other food products. **Due to** these circumstances, we are unable to guarantee that any menu item can be completely free of allergens.

While some foods listed indicate they do not contain peanuts and/or tree nuts, peanuts and tree nuts may be used in common manufacturing plants.
